Softphone Apps: SIP Clients for iOS and Android

CounterPath's mobile VoIP app is the industry's most reliable and feature-rich communication applications for Apple iOS and Android. Based on SIP and Open Standards, CounterPath's mobile softphone app clients become an extension to your company's PBX and feature a multitude of communication options, superior security

and encryption and advanced audio codecs.

Bria Mobile for iOS

With you wherever you go.

Developed for the Apple iPhone, iPad and iPod touch, Bria Mobile for iOS lets you take the power of your Bria desktop softphone with you wherever you go. Leveraging the device's native contact list or your corporate directory, you can make voice and video calls, send messages and see users' presence, all in one application.
