Bria Mobile for iOS includes HD voice and video calling, presence, messaging, so you are always in touch while you are on the go.

Bria Mobile for iOS is a SIP-based softphone for Apple iPhone, iPad and iPod touch that uses a Wi-Fi or cellular data network connection.

Need help with sending an instant message? Just ask Siri. Improved Siri support offers a convenient option to help send your message to contacts. Bria Mobile for iOS also supports CallKit integration that enables users to answer or dial outgoing calls seamlessly.

Note: Devices must run iOS 10+ for CallKit support.

Using the native contact list, Bria Mobile for iOS facilitates easy and effective communication management with an intuitive interface that accommodates multiple calls. Call functionality includes the ability to swap between two calls, merge and split calls as well as perform attended and unattended transfers.

Bria Mobile for iOS incorporates advanced security settings which allow for secure calls (signaling and media encryption). It also contains a wide array of audio codecs including: G.711, G.729, G.722, GSM, SILK and Opus.

Bria Mobile for iOS is a high quality softphone application for enterprises works with your current PBX or hosted voice service. You can easily add messaging and presence to support team communication. Bria Mobile puts all your Enterprise communications in your pocket so no matter where you are in the world, you can stay connected.
