# X-Lite - Welcoming You to the World of Softphones

Combining voice and video calls in a user-friendly interface, CounterPath's X-Lite helps you seamlessly transition from a traditional phone environment into the world of Voice over IP.

With X-Lite, try out **some of the best and most popular software features of our fully-loaded Bria (bria/) desktop client**, including voice and video calls (standard definition only), messaging and presence. Whether you're having a simple voice conversation with a business associate, or an in-depth discussion with a colleague over video, you'll soon see why having a SIP softphone on your desktop or laptop is the ultimate communications experience for Windows PC or Mac.

**Important Notice:** In order to use X-Lite, you must have a SIP enabled IP PBX or access to an Internet Service Provider.

**Notice:** Support for X-Lite is offered on our support forums (<https://support.counterpath.com/>) and our FAQ (<https://support.counterpath.com/knowledge-base>) only. Direct email support and phone support are not available.
